Govt to print, publish text books of classes VI, IX

The Government has decided to print and publish the textbooks of class six and class nine in open market for immediate resolution of the text books crisis, reports UNB.

The government took the decision as the Bangladesh Book Publishers and Sellers Association reached its commitment to supply the necessary books, said an official handout on Tuesday.

Interested printers and publishers are advised to contact the National Text Book Board, the handout said.

The government hoped the artificial textbook crisis will be removed soon following the steps.
